

THE ATLANTA CONSTITUTION.

VOL. XIX.

ATLANTA, GEORGIA, MONDAY MORNING, MARCH 5, 1888.

PRICE FIVE CENTS.

THE BLOODY SHIRT

To Be Flaunted in a Wild Manner Today.

THE REPUBLICANS ON THE ALERT.

A Contested Election Case to Furnish the Cue Upon Which They Will Start Up—Other News.

WASHINGTON, March 4.—[Special.]—The republicans will flaunt the bloody shirt in the house tomorrow, and the club will bathe in hair and blood.

The elections committee will call up the McDouie—Davis election, between Mr. McDouie from Alabama. The case on the part of the majority of the committee, will be managed by Mr. Marsh, of Pennsylvania, and the minority will be championed by Henry Cabot Lodge of Massachusetts. With the republicans, it is to be the old time cry of bulldozing, and negro intimidations. It is the purpose of the minority of the committee to set up a mill for the manufacture of a mighty thunder for use in the forthcoming election. The fact of the large negro population in the Selma district, and the handsome majority of Davidson, the democrat member, over his republican opponent, McDouie, will serve to start up the southern outrage mill, which for so many years has been the chief stock in trade with republican politicians. Mr. Crisp, chairman of the committee, has done his best to place the case in the hands of a northern man, and thereby deprive the opposition from making use of capital otherwise given them, if handled by the chairman or by other southern member of the committee. In the opinion of many the case will perhaps consume two or more days, and may possibly result in the creation of a special committee to be sent to Alabama to take testimony and investigate the case. At any rate it looks now as though the case is a doubtful one, as there are some eight or nine negroes who are shaky and may vote for the contestants. It is to be a political contest in all the words imply.

MR. RANDALL'S BILL.

Mr. Randall's new tariff bill has just been completed, and he will probably introduce it on Tuesday. In speaking of his bill Mr. Randall said it would be complete and perfect in every detail.

"How long have you been working upon it?"

Mr. Randall was asked.

"Two years," was the quick reply.

"It ought to be perfect after that much consideration," was suggested.

"I don't know as to that. I learn something new every day about it."

"It will not be hop, skip and jump," Mr. Randall continued, "like the one presented by the ways and means committee on Thursday last. It will embrace the best expert evidence that could be obtained from a number of persons entirely familiar with every branch of the tariff question."

THE WEEK IN CONGRESS.

The Measures Likely to Come Up During the Week.

WASHINGTON, March 4.—The Senate committee on appropriations intended to call on Monday for the urgent deficiency bill. It is expected that it will be disposed of without much delay, but should attention be called pointedly to a table of deferred bills during the session, the committee will be suspended in the room of a political debate may be brought on. The dependent pension bill is the unfinished business, having the right of way over everything else but the appropriation bill. The undivided bill, which goes away this week ago to the pension bill, will be taken up as soon as the latter is disposed of. Senator Sherman has stated his purpose to call up the Civil Rights bill as soon as possible but it is likely to get an opportunity this week, unless possibly in the morning hour. It is expected that the senate committee on finance will, at its meeting on Tuesday, take up another bill, the bill for the construction of the various railroads through the country. The action of the convention caused much dissatisfaction at the time of the opening of the session. You know this is the political debate may be brought on. The Carrs have been convicted of murder, but a change of venue and a new trial was granted, and he was convicted of murder in the second degree and sentenced to twenty years in the penitentiary. The same court will try this case again. On May 1st Carr will be tried again, and if he is found guilty, he will be sentenced to life imprisonment. The Carrs have been in town and will stand trial on the 1st of May. Carr's father came in, took hold of Ray's head, drew his chin back and cut his throat.

Carr was removed, and Ray sat up and leaned against the wall with the blood spurting three or four feet from his throat.

While standing there young Carr came up and asked him if he could laugh now. The old man laughed and died. The Carrs were then carried out of the room, and the crowd outside the hotel and stood by the door. Joe Carr followed Ray, and finding him dead, caught him by the collar and dashed him to "crow or laugh." Ray responded with a hearty laugh, whereupon Carr slashed his across the head and face with his knife. A doctor got Carr down, and he weighed 220 pounds. Ray was put to bed, and was up again. While in this position, Carr's father came in, took hold of Ray's head, drew his chin back and cut his throat.

LIFE IN HIGH SHOALS

An interesting Story of an interesting Place.

The First Factory Ever Built in the South—Horses, Cattle and Big Crop That Were Made.

HIGH SHOALS, Ga., March 4.—[Special.] Water bound at High Shoals! To a society man or woman this would be a privation, but there is some compensation for every misfortune, and there might be worse than a enforced stoppage at a pleasant village like this, even though the width of the locomotive-like life are foreseen.

It has been long since High Shoals first became known to the world, that it is hard to determine the precise time when it took on its swaddling clothes, but Cal Crow, one of the factory bosses, and the "oldest citizen," says that he commenced work here in 1842, eleven years after the first factory was built, and Cal ought to know, because it is generally believed that he was jumped up out of the first brick patch which was cleared up on the banks of the river.

THE FIRST FACTORY.

The first factory built by Hoppe & Goss, two northern men who came down to "put out the land," and the first building for spinning cotton was erected in 1831, fifty-seven years ago. The partnership contract was last for eleven years, and expired in 1842, having been renewed for another year. The original factory building was a wood structure, and the machinery was the best which could be bought at the time. In all probability, High Shoals may claim the distinction of having the first factory built in the South.

High Shoals has since passed through the hands of different corporations and is now owned by the High Shoals manufacturing company, of which Mr. J. W. Hinton is very efficient president. Mr. East Powell, now deceased, was his first president, and under his management the company was prosperous to an amazing degree. It was not uncommon during his administration to declare twenty per cent dividends and it was not rare that day that 50 per cent could be bought. Mr. Powell is one of those able managers who could grasp all the details of a large business, and made the property of the best that could be found.

In December, 1864, Mr. Hinton had more recently been presidents, and the company is in a most prosperous condition. For satisfactory reasons the directors have not seen fit to make known their dividends of late years, but more than this can be said, and this fact indicates more strongly than any stock quotations that the company is making money. How much they are making is not business of the public, but it is gratifying to know that the company is able to keep up with its orders, and that as well as all other southern cotton factories are making good dividends for their owners.

The company manufactures shirtings, checks, and yarns, the first being sold under the name of O'Farrell & Hedges, of Athens, and the latter by a house in Philadelphia, to be used as carpet warp. Five thousand six hundred spindles are run, and sixteen to eighteen hundred bales of cotton are shipped every year. This makes a fine local market for cotton, and neighboring farmers find also a good market for eggs, butter, milk, etc.

THE TOWN ITSELF.

High Shoals is located on the Apalachee river, 16 miles from Madison, and 14 miles from Athens, and contains a population of about nine hundred, made up mostly of operatives, and their families. The company's set of laborers people it would be hard to find, and there is a moral tone about the place which is the pride of the whole community. Immorality amongst the women is a thing almost unknown, and drunkenness amongst the men is not a common vice of position. The management of the factory, by Mr. Hinton as president and Mr. Blair as superintendent, is a model in every respect, and the stockholders may consider themselves of having such solid officers.

High Shoals is rather inaccessible at present, but this will not long be said of it. Enterprising people have determined to have connection with the world by a railroad line to be forever constructed from Atlanta to the mountains, to obtain the Macon and Covington. Anticipating a possible failure in this direction, a number of the leading men of the community met here and opened a subscription list for the building of a narrow gauge road to "Montezuma or some other point on the Gainesville, Jefferson and Southern railroad."

It seems to be the idea of those interested to strike this road at its points of intersection with the Georgia, Carolina and Northern railroad, so as to have a connection with the Gainesville and Southern railroads. A company has been organized, and a small amount will insure the building of the line. With a railroad connection to any point, new factories and other industries would be started at once, and High Shoals would be ranked as one of the factors in the world's trade. The energetic men who are looking to her future deserve to succeed, and I am sure that the Constitution will join me in a hearty God speed to all their efforts.

OUR SIR FARM.

It was my good fortune to be sheltered for several days during the past week under the hospitable roof of Mr. T. W. Powell, of this place. Let me add to him, Mr. T. W., his friends know him as "Teo," nothing else. A more hospitable, whole-souled, genial man it would be hard to find, and High Shoals could spare any of her treasures rather than Teo. Powell. Blew with a devoted wife and affectionate loving mother, host of friends and a splendid plantation, his lot in life is one to be envied.

Mr. Powell has a large farm which is cultivated a mixture of fruit and grain. He has not had enough labor, probably for farm work, and is now giving it up as fast as his contracts with different comitie express. He is a strong believer in terracing, and has commenced it in a thorough, systematic way, with great success. All his terraces are built of stone, and the ditch on the lower side, which he says is much better than the common plan of having them on the upper side.

He made a grain crop on his Greene county farm, which was probably the largest one ever raised in the state. Fifteen hundred bushels of barley, thirty-five hundred bushels of wheat, sixty-five thousand bushels of oats! If the story of the farm is true, we have the record. This was several years ago. Late he has not been so successful with grain, but still believes that oats are the corner stone of a cotton plantation.

OUR SIR HORSES.

His horses, however, are his special delight, and well they may be. A few years ago Captain John I. Calloway, of Oglethorpe county, who then lived in Louisville, Ky., bought a horse, a black gelding, for \$1,800. Navigator was a promising young stallion, and was kept on Captain Calloway's Oglethorpe farm for several years. Mr. Powell bought him from Captain Calloway, and now has thirteen colts from him. Navigator is now about ten years old, and is likely to become famous in his old age.

And it comes about in this way: His sire, Cuyler, was a son of Bonaparte, who was owned by Mr. McFerran, and these two have the honor of being the parents of the now famous Nutcracker, the fastest two-year-old horse in the world. Navigator and Nutcracker are full brothers, and only two stallions from Cuyler and Bonaparte in seven years old. Nutcracker trotted seven heats and made the last one in 2:27. His present owners, proprietors of an Ohio stock farm, are holding him at a public auction for \$28,000. So that Navigator has a right to be proud of his distinguished brother. But Navigator has no reason to be ashamed of himself, having trotted his mile in 2:40 at two years old, and beaten in the father of two very promising sons. But Navigator, like his master, Highwater, who died by Willie Brown, who made her mile at five years old in 2:35. Brown and Abdallah is three years old, a bay and a magnificent colt with everything to indicate a fine future for him. So that Mr. Powell may well be proud of his horses. Only

last week he was offered one dollar per pound for Bowman's Abdallah and promptly declined the offer.

CATTLE AND SILOS.

Another interesting attraction here is the dairy farm of Mr. W. P. Price, known all through this section as "Pink" Price. I had the pleasure of spending a night with him, and his entire family, and took a look the next morning at his fine cattle and silos. He believes that the silo is good, not only for the dairy farm, but for all farms, and in fact is fully convinced from several years experience that it is indispensable. His silo is now perfectly sweet, and he believes that there is no limit to the time which it would keep. I found by a test that the cattle eat it readily and horses also are fond of it. His silo will be a singularly anybody without experience could build one.

It has been long since High Shoals first became known to the world, that it is hard to determine the precise time when it took on its swaddling clothes, but Cal Crow, one of the factory bosses, and the "oldest citizen," says that he commenced work here in 1842, eleven years after the first factory was built, and Cal ought to know, because it is generally believed that he was jumped up out of the first brick patch which was cleared up on the banks of the river.

THE FIRST FACTORY.

The first factory built by Hoppe & Goss, two northern men who came down to "put out the land," and the first building for spinning cotton was erected in 1831, fifty-seven years ago. The partnership contract was last for eleven years, and expired in 1842, having been renewed for another year.

Public spirit behind public improvement promises to make a change in this borough which will astonish its most sanguine inhabitant. No mania, no craze, no bad, but concert, enterprise, and a new-born spirit of hopefulness.

Better pavements, better architecture, better hotels, better public buildings, indeed, everything in the line of superior advertising. New residences, a new government building, a fresh court house, a large depot for the Plant system nearer the city's center, a large and stylish hotel opposite Bull street, and a prettier spot to be found in this side of Woodlawn cemetery at Cleveland, Ohio.

The drivers and North Georgia railroad have arrived a steamer steamer which has the beauty of its beauty, and the grim but determined defenders of the southland, reared upon these hills, earthen breastworks behind which they watched in their duty. In front of them the river, the river, the river, the river, were dug rifle pits for the out posts. But now the carnage of war is over, peace reigns in the land and nature has reposed her retreat, the earthworks are covered with trees, and flowers, and all of the old scenes stand as dreams.

The sense of hallowed nature, the sense of the wild birds, is known amongst us as Clark's Hills.

Owing to the crowded condition of Rose Hill cemetery, and the want of room, our citizens have been fit to buy Clark's woods and use this as a private cemetery.

The ground has been cleared of the thick undergrowth, walks and drives have been laid out, lots 20x50 feet, and a prettier spot could not be found in this side of Woodlawn cemetery at Cleveland, Ohio.

The drivers are beautifully built, finished hard and smooth. The whole cemetery is certainly a beauty in which every visitor will find pleasure.

The breastwork near the river bank will be tastefully arranged as a flower garden. A hard walk will be laid on top of it. A large overhanging balcony will be extended beyond the main entrance.

Summer houses will be in profusion, the sprigs nicely bricked in. The trees to be planted are of the choicer evergreens ever planted in our southern states.

The Constitution is shown over the ground by General Superintendent Anderson. The reporter was conducted from the gate through the various roads and paths that are completed. The improvements that are to be made are plain to see. The arrangement that is being made to the beautiful and artistic order of arrangement it would be impossible to have any square, stern looking ones as each would be of some quaint shape. The superintendent further stated that the growth of trees had to be cut down to fit the new arrangement, and the new trees would be planted instead, and in such way that they would appear as if they were natural.

The roads were raised in some places in others lowered to let the water pass over them. The natural effect would be revived in other additions. Breastworks at the river precinct would be utilized, as stated above, making a beautiful picture.

One thing noticeable was that lots of land not yet occupied by negroes would be given to them.

Mr. J. F. Powers, state as a witness, said that the deceased came to him by a shot gun wound which may or may not have been inflicted by his own hand. A pistol and a hat were found near him, and a negro, who was working near, says he heard the pistol fire and saw the man stagger and fall. It may have been accidental.

A difficulty occurred in Geneva, Ga., Saturday afternoon. W. L. Sims, of Geneva, struck a man, Boggs of Marion county, with a bullet which hit his face quite badly. One Mr. Lightfoot, who was standing near the body of a man, and Sims' head was badly cut. Dr. J. W. Lee, of Talbotton, was badly cut. The jury returned a verdict that the deceased came to him by a shot gun wound which may or may not have been inflicted by his own hand. A pistol and a hat were found near him, and a negro, who was working near, says he heard the pistol fire and saw the man stagger and fall. It may have been accidental.

Mr. Kirby Beatty, a young man some twenty-three years old, living in the lower end of Thomas county, disappeared from his home last Monday morning. For several days search was made for him, but he was not found until Saturday evening, when his body was found in a skiff of woods not more than a quarter of a mile from the house. There was a bullet hole in his forehead, and he still held the pistol in a death grasp. He had been affected mentally for some time.

Mr. J. F. Powers, state as a witness, in Geneva, Ga., on the 15th of February. The first year he killed 287 beavers and sold them in Greenville. Besides the beavers, he slaughtered a large number of sheep, hogs and goats. Last year he killed 300 beavers and a large number of sheep, hogs and goats. Up to date this year he has killed 32 beavers. This shows the quantity of fresh meats consumed by the town.

The commitment trial of Dink Carter, colored, in Fairburn, who was charged with writing an obscene letter to a white girl, took place Saturday afternoon. The girl, a mulatto, was bound over and remanded to jail to answer to a charge of misdemeanor at the next term of the superior court. The evidence showed that a sister of the defendant did the writing, and she was accordingly arrested and committed to jail, but was subsequently released on a bond of fifty dollars.

Gleethope Echo. On the 7th instant, Mr. Thomas E. Draper, of this county, bought a railroad through the State of Georgia, and the neighborhood, but not until Saturday night, when he got to town, he will be able to do what they do there.

The parents of the young lady, who is a widow, have happily surmised where we will not recite them. May the life of the couple run more smoothly than has their courtship and marriage.

Pope to Be Tried Again.

SPRINGFIELD, Ga., March 4.—[Special.] County will convene here Monday next. The case of the State vs. Henry Pope, charged with rape, will be the first called. Mr. Knox, deputy sheriff, left today for Atlanta to bring up the prisoner, who has been confined there since his arrest, and will remain in custody until the trial.

John D. Fred of Fernandina, Fla., and Mr. Charles E. Boynton and Miss Clara Boynton, of Atlanta, are the defense attorneys.

Mr. W. A. Snowden, left for Richmond Friday evening.

Miss Clara Boynton left for Atlanta to visit her sister, Mrs. Whitefield.

Miss Helen, of Marietta, spent the day with the family of the Rev. Mr. Keeler, who is a teacher at a finishing school of art and music.

Mr. W. V. Carter and Woods White, of Atlanta, are to be on the streets today.

Dr. Charbonier is Sick.

ATLANTA, Ga., March 4.—[Special.] Owing to sickness Dr. L. H. Charbonier, chancellor pro tem of the university, was prevented from attending the graduating exercises of the medical college in Augusta. The doctor has been confined to his room for several days past, and unable to meet his classes in college.

ODD AND ANCIENT.

Mr. H. H. Dryhurst has an iron poker that is grand-fathered used. It is over 125 years old.

From the Butler, Ga., Herald.

Mr. H. H. Dryhurst has an iron poker that is grand-fathered used. It is over 125 years old.

From the Lafayette, Ga., Messenger.

S. J. Morton, the clever merchant of Crawfordville, back living evidence of his trip to Florida, is writing a book on the subject.

Mr. J. W. Hays has a little daughter, one year and eight months old, who can sing and carry the tune without assistance. She is a curiosity to all that have heard her sing. She has the knowledge of a ten-year-old child. Her sister Blanche, mentioned in the publication taken two years old, was in school only thirty-three days, and was in school only three years old.

Mr. J. W. Hays has a large farm which he says is much better than the common plan of having them on the upper side.

He made a grain crop on his Greene county farm, which was probably the largest one ever raised in the state. Fifteen hundred bushels of barley, thirty-five hundred bushels of wheat, sixty-five thousand bushels of oats!

If the story of the farm is true, we have the record. This was several years ago. Late he has not been so successful with grain, but still believes that oats are the corner stone of a cotton plantation.

OUR SIR HORSES.

His horses, however, are his special delight, and well they may be. A few years ago Captain John I. Calloway, of Oglethorpe county, who then lived in Louisville, Ky., bought a horse, a black gelding, for \$1,800. Navigator was a promising young stallion, and was kept on Captain Calloway's Oglethorpe farm for several years. Mr. Powell bought him from Captain Calloway, and now has thirteen colts from him. Navigator is now about ten years old, and is likely to become famous in his old age.

And it comes about in this way: His sire, Cuyler, was a son of Bonaparte, who was owned by Mr. McFerran, and these two have the honor of being the parents of the now famous Nutcracker, the fastest two-year-old horse in the world. Navigator and Nutcracker are full brothers, and only two stallions from Cuyler and Bonaparte in seven years old. Nutcracker trotted seven heats and made the last one in 2:27. His present owners, proprietors of an Ohio stock farm, are holding him at a public auction for \$28,000. So that Navigator has a right to be proud of his distinguished brother. But Navigator has no reason to be ashamed of himself, having trotted his mile in 2:40 at two years old, and beaten in the father of two very promising sons. But Navigator, like his master, Highwater, who died by Willie Brown, who made her mile at five years old in 2:35. Brown and Abdallah is three years old, a bay and a magnificent colt with everything to indicate a fine future for him. So that Mr. Powell may well be proud of his horses. Only

THE DAY IN MACON.

A Visit to Riverside Cemetery Saturday.

A Spot That Will Fill the Heart of Every Visitor With Tender Feeling—General City News.

MACON, Ga., March 4.—[Special.] Out through this section as "Pink" Price. I had the pleasure of spending a night with him, and his entire family, and took a look the next morning at his fine cattle and silos. He believes that the silo is good, not only for the dairy farm, but for all farms, and in fact is fully convinced from several years experience that it is indispensable. His silo is now perfectly sweet, and he believes that there is no limit to the time which it would keep. I found by a test that the cattle eat it readily and horses also are fond of it. His silo will be a singularly anybody without experience could build one.

Another interesting attraction here is the dairy farm of Mr. W. P. Price, known all through this section as "Pink" Price. I had the pleasure of spending a night with him, and his entire family, and took a look the next morning at his fine cattle and silos. After Dengue Fever

"My daughter Fannie was taken down with dengue fever two years ago, since which time she had never seen a well day, and all my friends thought I would lose her. I had almost given up hope, when I began to take Hood's Sarsaparilla about four months ago. She has taken four bottles, and has gained fifteen pounds in weight in that time. I have to thank Hood's Sarsaparilla as being the means of giving her back to me restored to health and strength." JULIA A. KELLY, Sherman, Texas.

Atlanta, Perry, Fort Gaines, Tal

HON. T. M. NORWOOD.
The Representative From the First District Talks.

He Has Not Studied the Tariff Bill But Favors Reduction.—Mr. Blaine's Letter—Other Matters.

Hon. T. M. Norwood, member of congress from the first district, reached the city last evening and is staying at the Kimball.

"I have come to Atlanta," he said to a representative of THE CONSTITUTION, "upon legal business and will for several days be engaged in the trial of some cases before Judge Marshall J. Clarke."

"What are you all going to do with the tariff bill, as reported by the ways and means committee?"

"That is a hard question to answer. So far as I am personally concerned, I am frank to say that I have not read the bill. Just before leaving Washington I obtained some of the printed copies of the bill. I sent all but one to the paper in my district. That one I kept to myself, but I have not given it any study as yet. But I will say that I think every member of the Georgia delegation, with the exception of Senator Brown, will vote for some measure looking to a reform of the present tariff laws."

"The New York World and a few other papers seem disposed to stir up opposition to President Cleveland in the democratic camp. What is the sentiment at Washington upon the matter of the nomination?"

"I do not know how great or how small the opposition to Mr. Cleveland may be in New York but so far as I can learn it consists largely in newspaper talk. Governor Hill is too sensible a man to encourage any such thing. He knows that he can abide his time. I am a great admirer of the president and firmly believe that he will be nominated at the St. Louis convention on the first ballot and more than likely by nomination."

"And the republican candidate?"

"That is a difficult question. Mr. Blaine's letter is still variously construed, though there are many more persons who believe it means what he said since they have read his Florence interview with Crawford, of the World. There are a good many leading republicans who still think that Mr. Blaine will be the party's nominee, and it is a fact that those who think so are among Mr. Blaine's best friends. My theory is, that when the convention assembled Mr. Blaine's friends will be among the leading members, but Mr. Blaine's name will not be formally presented. Still his friends—and his friends are the politicians and wire-pullers—will quietly manipulate things to suit themselves and after stirring the convention by a number of fruitless ballots for other candidates, Blaine's name will be sprung and he will be nominated in a way which will make it appear that there is a strong uprising in his behalf. I think he will be the next republican candidate."

"And the rest?"

"The result will be a repetition of 1884—more so. Mr. Cleveland will be triumphantly re-elected."

WALKS AND TALKS.

General Stewart L. Woodford, the eminent New lawyer, spent yesterday in Atlanta. General Woodford was en route from Montgomery, where he has been on business, to New York. He leaves this morning for his home.

The Atlanta Drama association is making excellent progress. Messrs Scott Thornton and George O'Brien are "dead perfect" in the lines of Othello and Iago, their respective characters, and the rest of the cast are "up" in their parts. Rehearsals of this play will begin this week. Hamlet is being thoroughly studied, and will be ready for rehearsal.

A new musical comedy will give an entirely new rendition of that wonderful character. He says that he is going to play his ideas of Shakespeare's idea of the creation, which he claims no actor has yet properly presented. His hamlet will be dressed in a manner which will devote the midnight hour of each night to the study of the part and then sleep. His conception he says, came to him while dreaming about the play.

"Lend Me Five Shillings" will get there. The lovely comedienne Sam, the wailer, will be played by Mr. E. Andrews, the best amateur comic actress in the country. He will produce a brand new comic song. The pretences of Othello and Hamlet will be richly costumed by a friend in Cincinnati.

RAILROAD "ROOSTER."

Likewise the Lion and the White Horse

Which Appears in a Typical Scene—Gossip of the Rails in the Form of Little Points Pinned Here and There.

There is only one thing better than the "cut" on the first page of the last issue of the *Keennews Gazette*, and that is the recent "cut" in passenger fares on the popular and progressive Western and Atlantic railroad, which is typified in the picture. The Rooster—the Western and Atlantic—jumps across the chasm of cheap passenger fares, from the land of old ways and Slim Jim "roosters" to the land of progress and prosperity. The White Horse—East Tennessee, Virginia and Georgia—is born; he didn't make the first jump, and the Rooster—natural—says it took a tremendous jump, and has had it. It hasn't a great notion to try it, though. The fine Italian hand of Mr. Joseph M. Brown is seen in the unique and artistic frontispiece.

Three, But Not a Kind.

The Georgia railroad has the best local route in the state. The Atlanta and West Point the next best, and the Western and Atlantic third on the list. Conundrum: Is it you can go to Chattanooga for 24 cents a mile, why can't you go to Augusta and West Point on a like figure? And who will take a fancy to this conundrum can have it.

The Hated Monolith.

Messrs Charles Walker and Fred Bush

don't often take advantage of Sunday to go down to Stone mountain, but they visited the bald-headed monolith yesterday, and persuaded five Scotch stone cutters to take the Western and Atlantic and Dakie line for St. Louis.

These enterprising gents were given a new song to sing, called "Better the day, better

the deed."

Cutting Under the Commission.

Since the drop of the Georgia Midland—the \$2.00 drop from Atlanta to Columbus—the cannon ball train has begun to shoot passengers to Columbus at the same rate. The distance between Atlanta and Columbus on the Georgia Midland is 120 miles and 138 via the Atlanta and West Point. Local stations on the Georgia Midland are few and very far between and Atlanta is the only competing point. It is very kind of the railroad to cut under the commission in this way. The commission will catch up.

Good Little Boys.

The passenger agents in Atlanta never open their offices on Sunday, but like the good little boys, that they are, attend divine services morning and evening.

Twelve a Day.

The local travel on the Western and Atlantic railroad is on a big boom. The twelve passenger trains a day have all they can do, and more.

It Will Come.

People are still talking of the Atlanta and Selma railroad. It will come.

A BAD MAN.

"Won't You Please Go, Sir, and Get My Baby for Me?"

"Perhaps the most interesting thing in all this world is a woman in distress, and the next is a baby."

Such was the language of Colonel John Thompson, the rosy-cheeked call officer, at the station last night, when a reporter demanded an item of his news.

The colonel continued: "You shall have it, I mean the item. It is Sunday, and I know you fellows are hard up for news. About six o'clock this evening the telephone bell rung, and I was called out to 214 Foundry street. The person who called (and whose voice I did not recognize) said that a man out there had filled up on mean liquor and driven his wife into the street. I got on my coat and went to the scene. He had three caskets of gold, silver and lead, placed the gentle Portia's picture in the leaden one, and said to me, 'I have a son named Antonio, he is a good boy, and I want him to have my money necessary to fit him to hold a rival place' with them. Without hesitation the gentleman handed over the caskets, and I carried them to the bank. He had played for heavy stakes. At first fortune and uprightness, and his caskets were won, but he lost. Every dollar he had was swept away. He was compelled to raise money and he asked the banker to lend him \$500, and offered to leave his violin, his violin as security. He was refused, and he was forced to sell his money necessary to fit him to hold a rival place' with them. Without hesitation the gentleman handed over the caskets, and I carried them to the bank. He had played for heavy stakes. At first fortune and uprightness, and his caskets were won, but he lost. Every dollar he had was swept away. He was compelled to raise money and he asked the banker to lend him \$500, and offered to leave his violin, his violin as security. A CLOUDY SUNDAY.

What the Preachers Discoursed About Yesterday.

The Weather Not Cheerful, But the Sermons Bright and Able—Dr. Heldt in His Old Place—Other Sermons.

The weather was dreary yesterday, but it did not deter church-goers from attending worship. Most of the churches contained large and earnest congregations, and some excellent sermons were preached. Short synopses of these are given below:

Trinity Church.

The congregation in Trinity church yesterday was a large and earnest one, and the sermon was powerful. It was preached by the Rev. J. W. Heldt, of Texas, who was formerly pastor of Trinity. The congregation gave him a round ovation. His sermon was as follows: "I confess that our nature is such that we cannot help sinning. Man may say he did not sin, but we know that he has sinned, but long ago chose to be his God, and to take away all imperfections, and you will not, so the world says, and you can't excuse yourselves, for God created man in His own image. We must confess our sins rendering us undeserving, but not penitent, if we deny to do what He provides. We must confess our sins, and not make excuse. Can we do that? Ought we not to do that? Confess that we do wrong, humble confess, for God is merciful. He sent His Son to satisfy His justice, and because Christ has done that, He can be glorified. He is great, and we are small. If God is removed, and it enables us to see how God can save us without any diminution of His power, then we are saved. We are saved by God's glory. God can save us, and rejoice not only in our salvation, but in His own glory. If we confess our sins, we are saved, and we are saved by God's grace, which is great. We are saved by God's love, which is great. We are saved by God's mercy, which is great. We are saved by God's truth and virtue.

Some men are fanatics, fanatical. They stress some one dogma and bring themselves into difficulties into public notice. Such are narrow minded and weak. Jesus Christ had a perfectly symmetrical life. In this He stood alone. He was not a "Christian" but a "Christian in His own right." He extended through all the lands of His birth. He did not go to any particular country, but to all. He was not a national hero, but a universal hero. He converted the people He must have access to them. He gave them a foundation of truth and merit.
